

PANTHEON

Stories to get you to the next level

Fatima @sugaroverflow
Developer Programs Engineer

Hi, I'm Fatima

DEVELOPER PROGRAMS ENGINEER  PANTHEON

@SUGAROVERFLOW

 — just moved to the Bay

 — Worked in the US & Canada

 — 2018 Rising Star leadership award

 — teaches code using pokemons

 — Chaotic creative at the *Bad Idea Factory*

 — Hobby axe thrower

SETTING CONTEXT

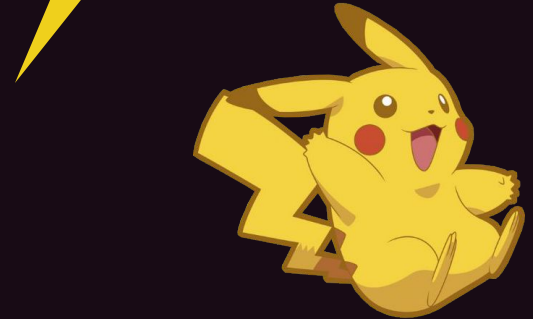

Why am I giving this talk?

STORYTIME

"You're going too fast"

ON FEEDBACK

- »» How can I best give and receive feedback?
- »» How do I like to receive feedback?
- »» What kind of feedback is most actionable for me?
- »» How can I communicate better with my team?

User Manual for

Conditions I like to work in

The times/hours I like to work

The best ways to communicate with me

The ways I like to receive feedback

Things I need

Things I struggle with

Things I love

Other things to know about me

STRATEGIES TO IMPROVE

- »» Are there parts of my process that can be better?
- »» What tools can I use in my workflow?
- »» What tips or strategies can I use?

Introducing SnippetsLab

Supercharge your productivity with SnippetsLab — a full-featured, professional code snippets manager. It helps you create your personal code library, keeps everything impeccably organized, and always at the ready for use.

What is "git add -patch"

`git add -p` is short for `git add --patch` and it is a git option that allows you to make more specific commits. How it works is that it will go through all new changes in your code and display hunks of them at a time for you to decide what you would like to stage or not stage.

Build your own workflows

You can create checklists for some of your repeatable work!

STORYTIME

"We can't promote you as promised"

ON PROMOTIONS & ROLES

- »» What is it that I want to gain from this job?
- »» What are my organization's policies for promotions?
- »» What kind of feedback or review mechanisms exist?
- »» Is this role fulfilling for me?

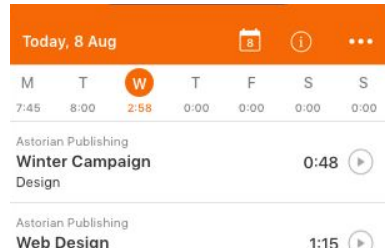

RescueTime

HARVEST

Tracking your work time

You'll know where most of your time was spent and you can use this data to your benefit.

Ideas to explore ✨

- **Having conversations in the open**
- **Being clear about your goals**
- **Finding your allies**
- ~~**Doing more**~~

Stuff to think about

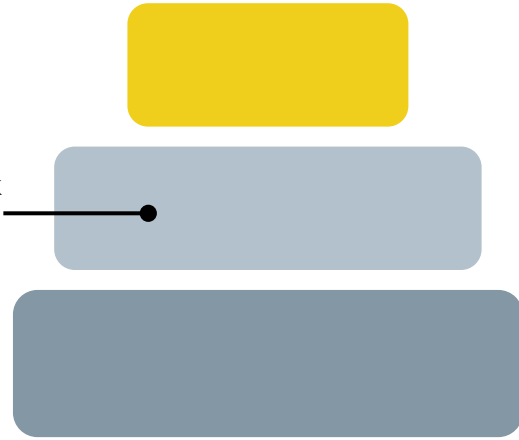

- **Know what's important to you**
- **Research the people you admire**
- **Ask for the job you want**

FINAL THOUGHTS

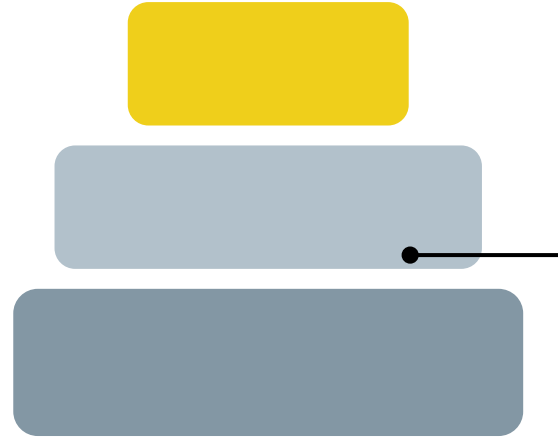

Continuously reevaluate your job & environment.

Support to speak
at Midcamp!

**What the organization
provides you**

Passionate about
diversity &
inclusion

**What you bring
to the organization**

Thank you!
