AGENDA

01

WHAT IS THE EVENT PLATFORM?

Understanding the needs that drove its creation and what it provides

02

DEMO

Install and set up a site from scratch

03

ROADMAP

What's ahead for the Event Platform

WHAT IS THE EVENT PLATFORM?

A set of modules that simplify the website setup for a Drupalcamp (or similar event)

A modular content architecture which includes:

- Sessions and BOFs
- Sponsors
- Job Listings
- Featured Speakers

Releases for Conference Organizing Distribution

Version starts with

[Filter](#)

cod 7.x-2.0

7.x-2.0

[Bug fixes](#)[New features](#)

This is the first full release, Drupal 7.59 core of the Conference Organizing Distribution

With the last RCs being stable, we've made a cut of a full release for COD. The difference between RC4 and Full is limited to updates in contributed modules.

[Read more](#) [View usage statistics for this release](#)

cod 7.x-2.0-rc4

7.x-2.0-rc4

[Bug fixes](#)

This is a module and security update to Drupal 7.58. No COD modules are updated in this release.

CAPABILITIES INCLUDE:

- A workflow to moderate user-submitted sessions
- Automatically notify speakers when their sessions are accepted or rejected
- Display sponsors prioritized by level of sponsorship
- Users can flag interesting sessions and see a personal schedule

Generate Time Slots ☆

Start Date *

08/14/2025

The first day for which time slots will be generated.

End Date *

08/16/2025

The last day for which time slots will be generated.

Start Times *

10am
11am
12pm
1pm
2pm

Provide the start times for the time slots to be generated, with each time on its own line. The following formats can all be understood: 1:00pm, 13:00, 13h00

Duration *

45

minutes

The length, in minutes, of the time slots that will be generated.

Replace existing

Select this to replace all existing time slots with the generated values.

5 items selected Action:

OTHER 2025 IMPROVEMENTS

- Better multilingual support
- List concurrent sessions on session page

A THEME OF ITS OWN

- A fork of the 2025 FLDC theme
- Made configurable: colors, graphics, etc
- Under the hood:
 - SDCs
 - CSS variables

Event Horizon Utilities

Event Horizon Color Scheme Settings

These settings adjust the look and feel of the Event Horizon theme. Changing the color below will change the base hue, saturation, and lightness values the Event Horizon theme uses to determine its internal colors.

Event Horizon Primary Color

Dark Pink (Default) ▾

Primary base color

#e70077

Enter color in hexadecimal format (#abc123). Derivatives will be formed from this color.

Event Horizon Secondary Color

Teal (Default) ▾

Secondary base color

#93e7ff

Enter color in hexadecimal format (#abc123). Derivatives will be formed from this color.

^ Home page graphic

☒ Use the graphic supplied by the theme

^ Home page texture

☒ Use the texture supplied by the theme

THE
BIG IDEA
EVENT PLANNING WORKFLOW

EVENT PLANNING

01

DATES ANNOUNCED

Call for sponsors, featured speakers, etc

02

CALL FOR SESSION PROPOSALS

Users submit sessions, trainings, etc

03

SESSIONS DEADLINE

Sessions scored and ranked.
Notify speakers, schedule, etc

04

SCHEDULE PUBLISHED

Schedule, flag for personal schedule

05

UNDERWAY

Link to today's schedule

06

COMPLETE

Wrap message, link to playlist

Could we highlight different information at each stage?

Could we automate the transitions?

EVENT PLANNING WORKFLOW

Event Stage	Dynamic Menu Items	Header CTA	Home Page Content	Event Page	Session Page
Save the Date	Trainings	Newsletter signup	Current Event: Sponsors, Stats, News, Save the Date (add-to-cal links)	Dates, Sponsors, News, Key Dates	N/A
Open for Sessions	Sessions, Registration, Tracks, Jobs, Trainings	Submit a Session	Current Event: Speakers, Sponsors, Stats, News	Dates, Speakers, Sponsors, Recent Session Proposals, Key Dates	Description, speakers
Sessions Closed	Sessions, Registration, Jobs, Trainings	Register Today	Current Event: Speakers, Sponsors, Stats, News	Dates, Speakers, Sponsors, Recent Session Proposals	Description, speakers, scoring widget (admin only)
Schedule Published	Schedule, Registration, Jobs, Trainings	Register Today	+ link to schedule	Dates, Speakers, Sponsors, Schedule	+ room, time, concurrent sessions
Underway	Schedule, Registration, Jobs, Trainings	Register Today	+ link to current day's schedule	Dates, Speakers, Sponsors, Today's Schedule	+ room, time, concurrent sessions
Complete	Schedule, Jobs	View the Playlist	Speakers, Sponsors, Stats, Link to playlist, News	Dates, Speakers, Sponsors, Link to playlist, Thank You statement	Description, speakers, room, time, slides, recording, rating widget?

NOTES:

- A dynamic menu item is a single menu item that points to the appropriate location relative to the event being currently viewed, or to the "current" event as configured

 **John Picozzi**
8:45 AM Apr 3

Maybe instead of newsletter signup (as they are already on the site) it should be something like "Save the date Nov 14th & 15th"

 **April Sides**
9:50 PM Apr 3

As far as a CTA, I think the newsletter signup is a good call to action. In addition, maybe follow us on social media channels.

 **Martin Anderson Clutz**
4:33 AM Apr 6

Would there be value in having add to calendar links?

 **John Picozzi**
1:51 PM Apr 6

Sure!

John Picozzi

EVENT PLANNING WORKFLOW

	Dynamic Menu Items	Header CTA	Home Page Content	Event Page	Session Page
Save the Date	Trainings	Newsletter signup	Current Event: Sponsors, Stats, News, Save the Date (add-to-cal links)	Dates, Sponsors, News, Key Dates	N/A

SMART MENU LINKS

- Maintain contextual argument when going to / switching between views that use them
- Extracts a value from a specified place in the request path
- Provides validation for the entity type and bundle, as well as an additional path segment
- Can limit a link's visibility based on the referenced entity's moderation state
- Links are configuration entities

- Custom CTA block
 - Shows the appropriate CTA based on the event workflow state
- Block visibility based on moderation state
 - Extended Moderation State Condition, new version released

02

DEMO

03

ROADMAP

- Create a site template for Event Platform
 - More opinionated about optimizations
 - Metatags, social media image gen, etc
 - Implement [Drupal CMS installer](#)
- Convert existing modules to recipes
 - Move some functional code to separate projects, make configurable

- Spin up a full install in minutes
 - Automatically paused if unused for a period of time
- Able to move to public hosting

**DRUPAL
FORGE**

- Allow ticket purchase within Drupal
 - More control of the checkout experience
 - Potentially lower fees
- Dialogue already started with Centarro

... COMING SOON ...

AI?

- When the request path references an event, make the event's full name (including the camp name) the "site name" value passed to the theme
- Potential approach: move the entity identification and validation code from Smart Menu Links to a service

- Allow speakers to only create sessions while the current event is in the “Sessions Open” workflow state
- Custom
 - Cache context
 - Access policy service

THANKS!

Does anyone have any questions?
